VOL. XL NO 31

MARLINTON, POCAHONTAS COUNTY WEST VIRGINIA, MARCH 16, 1922

\$1.00 A YEAR IN ADVANCE

GAME NOTES

Branches of the Wild Life League of West Virginia were organized last week at Moundsville and Sistersville. A meeting for the purpose of the organizing of a branch will be held in Huntington, on Wednesday night of this week.

The Game and Fish Commission will undertake to raise a limited number of ring-necked pheasants, for distribution in the State this year. Its hope of the Commission to raise more of these birds next year.

The force for controlling forest fires will be organized at once for taking care of the forest fires which occur in the spring. In this connection, the Game and Fish Commission has offered a reward of One Hundred Dollars for evidence leading to the arrest and conviction of any person willfully and maliciously setting out fire in the forests of the state.

Posters for the purpose of posting the streams in which fishing has been suspended for three years, will soon be ready for distribution, and the work of posting these streams will begin at an early date.

A state meeting will be held some time during the month of April to perfect the State organization of the Wild Life League of West Virginia. The date and place of meeting will be announced later.

The Commission is making an effort to secure as many fish as possible for restocking the streams of the state. Owing to the limited supply of fish that can be furnished by the Bureau of Fisheries, the distribution will be made in the order of the application received. There is such a wide demand for these fish all over the United States, that West Virginia may not be able to obtain as many as it will need to fill all the applications.

WANLESS

Another State Legislature like the last one will make West Virginia think it was moved over somewhere in Tax Burdened Europe.

They seem to think that we are all Millionaires, and have forgotten that our earning Power has been greatly reduced, and still they want to extract more money from us in the way of higher taxes.

If some of them had to use a lot of Elbow Grease and hump their backs at hard toil like the most of us do to make a decent living and pay taxes, they wouldn't be so free to make appropriations to spend so much of their people's hard earned money. It seems as though some of politicians have forgotten they were elected by the people for the people, from some of these Narrow Minded one sided laws they have passed for us to be subjects of. We don't like to be going around with a grinch, but when we are pinched until we are hurt, we have to make a protest. Maybe after the next election some of those fellows that took a part in soaking us will be back home smoking a shorter cigar than they did while in Charleston.

JOHN S. JACKSON, DEAD

John S. Jackson, aged nearly 80 years, died at the home of his brother-in-law, W. H. Cackley in Ronceverte, on Tuesday morning. He had been in failing health for some time. Burial at Ronceverte Wednesday afternoon. Mr. Jackson was well known in Pocahontas, and was one of the youngest Confederate soldiers to go out from this county. He was a kindly disposed man and had friends wherever he was known.

C. A. Yeager has purchased a farm of 1152 acres in Southampton County Virginia. It is located on the Blackwater River a mile and a half above the junction of that river with Notoway River. It is the famous old homestead where General Vaughn was born. Mr. Yeager will spend most of the summer on his farm. He will plow about 650 acres this year to be cropped as follows: 200 acres of cotton; 200 acres of peanuts; 200 acres of corn; 50 acres, oats and other crops.

A lot of cases of influenza in town now.

Here's the Reason

we are spending our money to bring some direct truths to the attention of our people, because we believe it means the improvement of this section of the country, and we will certainly participate in the increased business which naturally follows.

We want to help, and we believe good roads and good transportation facilities is the place to begin.

We can render every banking service—all under same roof.

EDUCATIONAL JOTTINGS

BY COUNTY SUPT. G. D. MCNEILL

According to the recent regulations concerning Standardization, few schools will be able to qualify for first or second class so as to receive the State Aid given such schools; but any school grading 70 or better is entitled to a Certificate of Merit. A number of schools will be able to qualify for this Certificate, and it is much desired that as many schools as possible make the required seventy points. Teachers should grade their schools according to the chart distributed at the District Institutes. In case of doubt as to the grading on any point, refer to the bulletin distributed at Institute. The County Superintendent will assist in this grading, when he visits the schools, but as it will not be possible to re-visit all the schools for the purpose of doing this grading, the teachers are asked to grade their own schools. It is gratifying to state that the county has few teachers who are not entitled to a rating of "good or superior" on the chart, and they may so rate themselves in making up the chart. The few cases in which the teachers are deemed not entitled to a creditable rating will be taken care of by advising the teacher personally of the lamentable condition. The Department of Schools will certainly demand a statement of the number of schools deserving a Certificate, and it is very essential that the schools be rated so as to make as good a showing as honest grading will permit.

Do not forget to order questions for the Diploma Examination to be held March 23-24th.

April 5th, at Marlinton, Examination on Reading Circle Books for Coupon of Credit and second Renewal of First Grade Certificates. At the same time there will be examination on High School and Professional Subjects. This examination is for the accommodation of teachers who wish to meet the requirement of one year of high school work and nine weeks normal training necessary to the making of a first grade certificate in Uniform Examination. The High School and professional subjects which may be taken in this examination are given below.

In order to receive credit for one year of high school work, four units of the above must be taken. In order to receive credit for the necessary unit of professional work, both professional subjects listed must be taken. Passing grade on this high school and professional work is 85 per cent. For further information regarding this examination write county superintendent.

The schools of the county are in much better condition than they were last year. The most creditable achievement appears to be the increased attendance. A number of schools have made averages of more than 95 per cent, and most schools have beaten 85 per cent.

The enumeration of the sub-districts should be in the hands of the secretary April first. If you have not received proper blanks, call on secretary for them. Teachers who do not make report of enumeration may expect their last month's salary held up.

DRY LAW NO JOKE

"Some people seem always to forget the duty that they owe to their country, their duty as citizens, their duty as patriots, their duty as men, as women and to themselves, as well as to their posterity," said Judge George W. McClintic, of the U. S. District Court in his charge to the grand jury at Huntington Tuesday.

"There seems to be a general idea abroad now, that is 'funny' to make remarks and say things about the Volstead act. There is nothing funny about these remarks and as a result of them the people are being outraged with reference thereto."

He declared that it was the duty of every lawyer that practices in the U. S. Court and of everyone who holds an office to respect the office they have and uphold them. It is our duty to see that nothing be spared, that so far as the State of West Virginia is concerned that lawyers have got to let liquor alone. If they are going to practice in this court, if any lawyer is found guilty of breaking this law I am going to direct that proceedings be taken against him and have him restrained from practicing in the Courts of West Virginia.

Friend Price: I am sending you an account of the death of David Cackley, of Clinton, Dewitt county, Illinois. His father William Cackley, who owned a farm near Huntersville on the Beaver creek road, was an uncle of mine. David left Pocahontas when about 22 years old. A few years ago he made his first visit to his native county after an absence of over sixty years. He made a short visit in my home and I accompanied him to Pocahontas. Your father, Rev. W. T. Price, was the only person living in Pocahontas county that he knew—that had grown up together. So far as I know he is the last of his father's family consisting of four brothers and four or five sisters. His father moved to Illinois in 1855, all of the boys (except the youngest, Fry) having settled in Illinois. Fry, who married a Miss Loury, followed a few years later.

David Cackley, one of Clinton's aged and most respected citizens, passed away at the John Warner hospital in this city at an early hour this morning after an illness lasting for several weeks. Born at Huntersville, Pocahontas county, Virginia, (West Virginia) May 14, 1830, was the son of Mr. and Mrs. William Cackley. His father came to Clinton county from there to Sangamon county on horse back. From Sangamon county he came back to Dewitt county in 1854 and had since made that county his home. He enlisted in Co. D, 107 Illinois Infantry and served as chief musician for three years in war between the States—Clinton (Ill.) Morning Journal, March 1 1922.
